

Color Palette

Our color palette is designed to depict a modern, independent investment bank.

Incorporating minimal organic, soulful earth tones against open, white, negative spaces allows for our signature banking blues and silvers to be at the forefront—capturing the spirit of traditional values and modern style. A vibrant Sapphire accents the palette to communicate our friendly, fun, and spirited work culture.

The primary and secondary core colors are ADA-compliant, except for Roman Silver and Tufts Blue (which are colors from our trinity globe). Lighter and darker shades are acceptable as long as ADA-compliant ratios are met.
